

POOJA U

Kanchipuram, Tamil Nadu | +91 8438574647 | ✉ poojaumanath3@gmail.com

GitHub: <https://github.com/pooja3122005> | LinkedIn: <https://linkedin.com/in/pooja-umanath-37154529b>

Information Technology undergraduate with hands-on experience in Java, React.js, SQL, and AI-powered applications. Built chatbot and automation solutions using LLMs, Firebase, and Spring Boot. Passionate about software development, problem-solving, and learning new technologies through projects and hackathons.

TECHNICAL SKILLS

Languages: Java (Intermediate), SQL, Python (Basics)

Frontend: HTML, CSS, React.js

Databases: Firebase, PostgreSQL, MongoDB, Pinecone

Frameworks: Spring Boot (Basic), Tailwind CSS

Tools: VS Code, IntelliJ IDEA, Eclipse, Git, GitHub, n8n

INTERNSHIPS

Web Application Development Intern (Frontend + Firebase) – Tek Pyramid

Worked on frontend development and integrated Firebase for backend services including authentication and database management.

Cloud Computing Intern – CodTech

Studied cloud computing fundamentals, deployment models (IaaS, PaaS, SaaS), and cloud architecture concepts. Explored basic cloud services and gained practical exposure to cloud platforms.

Java Programming with OOPs – Elewayte

Strengthened core Java skills with emphasis on object-oriented programming principles and application development.

ACHIEVEMENTS

- **First Runner-up – G-Hacks by GDG:** Built multilingual, platform-independent chatbot, securing 2nd place in college-level hackathon.
- **Finalist – Smart India Hackathon 2025 (SIH 2K25):** Shortlisted among top teams nationwide for developing an innovative solution.

CERTIFICATIONS

- Generative AI Certified Professional – **Oracle**
- GenAI Certification, Agile Certification – **Infosys Springboard**
- Programming in Java-**NPTEL**
- Data Science for Beginners – **FutureSkills (Nasscom)**
- Java Programming with OOPs – **Elewayte**
- Cloud Platform Simulation Certificate – **Verizon (Forge)**

LANGUAGES

Tamil ,English

EDUCATION

B.Tech – Information Technology

Panimalar Engineering College, Chennai | Sep 2023 – Present

Higher Secondary Education

Infant Jesus Matric Hr. Sec. School, Kanchipuram | Jun 2022 – Mar 2023

PROJECTS

Automated Bloom's Taxonomy Analyzer (LLaMA 3)

- Developed an AI-powered system using LLaMA 3 to generate and analyze university question papers based on Bloom's Taxonomy.
- Automated question distribution using Course Outcomes (COs) and cognitive difficulty levels.

Multilingual College Information Chatbot

- Built a multilingual chatbot to answer college-related queries using institutional documents and knowledge sources.
- Integrated Telegram for user interaction and enabled escalation support through WhatsApp and Email.

Mini Code Executor

- Developed a code execution platform using Java and Spring Boot that allows users to write, compile, and execute code.
- Implemented backend APIs for code processing, result generation, and user interaction.

INTERESTS & LEARNING

Passionate about Java programming, low-code automation, and hackathons. Enjoy learning new frameworks and building practical solutions through hands-on projects.
